

Pipeline Direct Assessment

A resource CD from GTI

Gas Technology Institute (GTI) has compiled a comprehensive Resource CD containing eleven (11) critical documents and guidelines on Pipeline Direct Assessment. This CD provides assistance to pipeline operators and service companies interested in using Pipeline Direct Assessment (DA) to comply with the Pipeline Safety Act of 2002 and the new Pipeline Regulations **49 CFR §192(N)** and **49 CFR §195(G)**.

The Pipeline Direct Assessment Resource CD can be used as a company wide reference and to help you—

- Prepare your Integrity Management Plan (IMP)
- Evaluate estimated pipeline DA costs vs. alternative approved methods
- Formulate company pipeline DA policies, procedures and guidelines
- Review DA standards for—
 - External Corrosion Direct Assessment
 - Internal Corrosion Direct Assessment
 - Stress Corrosion Cracking (SCC) Direct Assessment
 - Confirmatory Direct Assessment
